Subject: Alternator

Affected engine models: All engine models

SL 1700 EA

Background information: Occasional radio interference as well as delivery problems of the manufacturer of the alternator Ducati Type 610

Priority: none

Compliance: The alternator type Ducati 610 P/N: 17.11.021 is being replaced by the alternator Ducellier 7532 P/N: 17.11.020 A. A new clamping strap and clamping strap fitting is to be used, too.

Remarks: Engine power is unchanged. Engine mass is increased by 0.82 kg. The Ducellier 7532 alternator is controlled by a separate regulator. For the amended wiring diagram contact your airframe manufacturer.
